

BIOMEDICA & MICROBIOLOGICAL QC

Products

Culture Media

- Ready to Use
- Custom Made
- Dry Media

QC Microorganisms

- Qualitative
- Quantitative
- Custom Solutions

Instrumentation

- Diluter
- Pump
- Spiral Plater
- Colony Counter

PRODUCT INFORMATION

Culture Media

Ready to Use, Standard & Custom Made Culture Media

- FDA 21 CFR part 11 compliant, USP/EP/JP conform
- Standard media for:
 - Environmental Monitoring
 - Sterility Testing
 - Media fill
- Lot reservation options – reduced delivery bottlenecks
- Custom made media:
 - Choose the recipe, format and packaging you need

Dry Media & Supplements

- All kind of media and supplements in different fillings

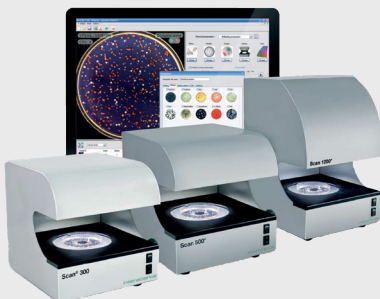

QC Microorganisms

QC Microorganisms in Ready to Use Formats

- 3 passages or less from the reference culture (ATCC®, NCTC, CDC,...)
- 2-8°C storage
- Qualitative formats
- Quantitative formats:
 - High or low CFU
 - GPT products – 10-100 CFU/0,1ml, large or small scale
- Custom Solutions:
 - ID, characterization, preservation and storage in Scotland
 - Your strain in the format you need
 - You choose the CFU
 - 2-8°C storage

Instrumentation

Scientific Equipment for Microbiology

- Automatic diluter & (spiral) plater
- Automatic bacterial enumeration & inhibition zone reader
- Dispensing pumps
- Real-time incubator and colony counter
